

A Microsatellite Instability (MSI) Series

Session 3: October 26, 2021

Date	Time	Track	Presentation Title	Speaker
5-Nov	12:00 - 11:59 AM		Past, Present and Future: Advances in MSI Testing	Jeff Bacher, PhD Senior Research Scientist, Promega Corporation, Adjunct Professor, UW-Madison, Dept. of Medicine
5-Nov	12:01 - 11:59 PM		MSI Predicts Immunotherapeutic Response	James Eshleman, MD, PhD Professor of Pathology and Oncology, Associate Director, Molecular Diagnostics Laboratory, Johns Hopkins University School of Medicine
5-Nov	12:10 - 11:59 PM		Universal Tumor Screening for Lynch Syndrome: Past, Present and Future	Heather Hampel, MS LGC Associate Director, Division of Human Genetics, Associate Director, Biospecimen Research Professor, Internal Medicine, Licensed Genetic Counselor, The Ohio State University Cancer Center
5-Nov	12:15 - 11:59 PM		Clinical Testing and Implication of MSI Testing in GI Cancers	Gerard Blobe, MD, PhD Professor of Medicine, Pharmacology and Cancer Biology at Duke University School of Medicine, Associate Director of Training and Education for the Duke Cancer Institute
29-Jun	10:00 - 10:40 AM		Colorectal Cancer Disparities and the Role of MSI Testing and Implementation	Dr. Ryan Nguyen, DO Chief Hematology and Oncology Fellow, University of Illinois at Chicago
29-Jun	10:40 - 11:15 AM		Development of a Microsatellite Instability Assay Utilizing Novel Long Repeats	Dr. Samantha Lewis, Ph.D. Clinical Development Specialist, Promega Corporation
29-Jun	11:15 - 11:45 AM		Tracking MSI status in liquid biopsies from MSI-H colorectal cancer subjects on immunotherapy	Dr. Pamela Ward, Ph.D. Associate Professor of Clinical Pathology, Scientific Director, USC Clinical Laboratories, Molecular Pathology
26-Oct	Oct 26, 2021 11:00 AM CDT		Current Gold-Standards for MSI Testing and the Clinical Relevance of the MSI-H Biomarker	Dr. Emily Teslow, Ph.D. Medical Science Liaison, Medical Affairs Dept, Promega Corporation

26-Oct	Oct 26, 2021 12:00 PM CDT		Performance of the OncoMate™ MSI Dx Analysis System	Kathryn Oostdik Sr. Global Product Manager, Clinical Diagnostics, Promega Corporation
